

WHY INSURANCE AGENTS WORRY ABOUT THEIR CLIENTS

100,000+
wildfires occur
in the U.S.
each year

2,862
Homes were destroyed by
wildfires in Texas during 2011

Prevention Tip!

Create a 'defendable space' around
your home by clearing dead tree
branches, pine needles, and any
other possible fuel sources.

1500
Injuries

75
fatalities

are caused by
tornados each year

62 deaths
OCCUR on
average from
lightning
annually

\$20 BILLION
in economic damage
resulted from the Northridge
Earthquake in 1994

What to do!

During an earthquake drop to the
floor, seek cover under a sturdy table
or desk and hold on until
the shaking stops.

3050
Earthquakes occur on
average in the US each year

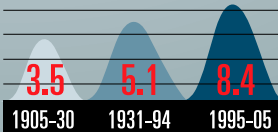

#1

natural disaster
is flooding each year
affecting over 11,000
households on average

275,000

homes were lost due to
hurricane Katrina in
2005 causing **\$81 billion**
in economic damages.

HURRICANES PER YEAR

Act Quickly!

If flooding is imminent, turn off all the utilities
like power supply, water supply, gas supply
etc at its main source. Disconnect all electrical
appliances and store valuables as high in the
home as possible.
